English: *TOEIC 850 (B2)*

Professional experience

2021 - 2025 : Product Designer - Carbo (CDI, Full remote, 4 years)

- **Creation, documentation, and updating of a Design System** on React as the sole designer.
- **Redesign of the entire existing user journey** (notable areas: Dashboard, Onboarding, Carbon Reduction Feature) and planning of the migration from Ruby on Rails to React.
- **Creation of the UX-UI for an AI-assisted application** to perform life cycle analyses.
- **Design Thinking:** User research, user testing, A/B testing, Figma prototyping, organization of collaborative workshops, feature allocation to develop the product iteratively.
- **Drafting and specification of Github tickets** related to front-end developments.
- **Creation of a common graphic charter** for the company, standardization of our communication materials, creation of simplified product visuals to illustrate our features and strengths.

2021 : Designer - Freelance (Full remote, 6 months)

- **UX-UI:** For *Brand Appart* agency: Discovery and user interviews to define customer needs. Definition of the architecture and wireframing of two SaaS applications. Collaboration with Product Designers on Design Systems. Visual and functional redesign of showcase and e-commerce websites.
- **Graphic designer:** Creation of visuals for social media and print for the *Make Somme Noise Festival*.
- **Video design:** Creation of streaming assets for the *Play Two* music label and other individuals.

2021 : Designer - Screen Club (Internship in Lyon, 5 months)

- **Google Arts & Culture:** Production of videos in YouTube and social media formats for the Heartbeat of the Earth series.
- **W/A-V/E project:** Visual research to convey the emotions, textures, and sounds of Thomas Roussel's orchestra. Creation of 3D renderings on the theme of the ocean, projected in an amphitheater for the Macao Biennale festival.
- **UX-UI redesign of online portfolios:** Pierre David and Screen Club.

Education

2020 - 2021 : Master Media Design - Head of the year - L'École de design Nantes Atlantique

- Final year project on the link between music and deafness. Conducting user research and interviews with deaf people, then organizing workshops with deaf children to introduce them to the world of sound and vibration through music.
- Artistic direction project for print and video: Milan Design Week, Nantes University Hospital.
- Computer graphics project in collaboration with students from Centrale Audencia.

2017 - 2019 : Bachelor Interaction Design - L'École de design Nantes Atlantique

- Training in UX-UI Design and professional application during projects in collaboration with MAIF and Arkéa. (SCRUM methodology, Design Thinking)
- Video training: editing, Motion Design, mapping (several workshops)
- HTML/CSS training
